

How to Effectively Work in Groups

Project Planning

Be as specific as possible when you are creating your task list and scheduling your goals.

Honesty and Transparency

For any concerns or issues that may arise, it is best to communicate openly with your teammates.

Divison of Labour

Understand that not every task is created equally, but that you can still strive for equality.

Conflict Resolution (C.A.L.M.)

CLARIFY your intentions, ASK for help, LISTEN to the feedback, and MOVE forward from the issue.

Why Do We Do Group Work?

Group work allows us to broaden our perspectives by hearing from a diverse set of voices.
By doing so, we can arrive at solutions that we may not reach individually.
